I-405 SOUTH IMPROVEMENT PROJECT FROM I-5 TO SR-55

YOU'RE INVITED! PUBLIC INFORMATION MEETING

TUESDAY, NOVEMBER 3, 2015

5:00-8:00 PM

University Community Park
Multipurpose Room 2
1 Beech Tree Lane
Irvine, CA 92612

WHAT IS THE I-405 SOUTH IMPROVEMENT PROJECT?

The I-405 South Improvement Project is a proposed freeway improvement project, which travels through the City of Irvine between I-5 and SR-55. Currently in a preliminary engineering and environmental study phase, OCTA and Caltrans will evaluate potential benefits and effects of adding lanes to this segment of I-405. This study began in early 2015 and is scheduled to be completed in mid-2017.

Every day, between 207,000 and 316,000 motorists drive this 8.5 mile stretch of freeway to get to work, school and other essential destinations. Already at capacity, studies forecast that traffic will increase by between 38,000 and 58,000 daily trips by 2045; so planning for this growth is important to Orange County's mobility, economy and quality of life.

The I-405 South Improvement Project is funded in part by Measure M, Orange County's voter-approved transportation investment plan. Renewed by nearly 70% of voters in 2006, Measure M can be viewed at www.octa.net/pdf/investmentplan.pdf.
