

# Orange and Los Angeles Intercounty Transportation Study Update

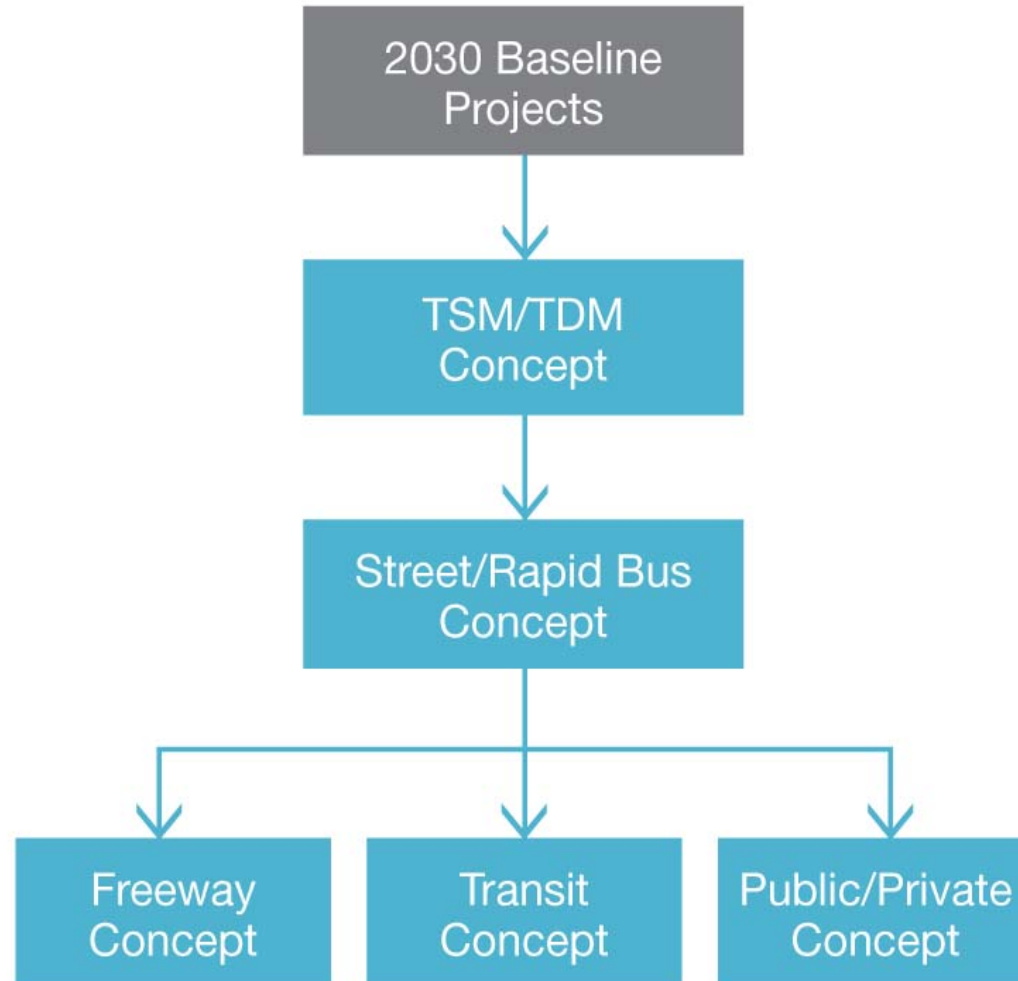

Board of Directors' Meeting  
February 23, 2009

# Orange and Los Angeles Study Area

# Conceptual Alternatives

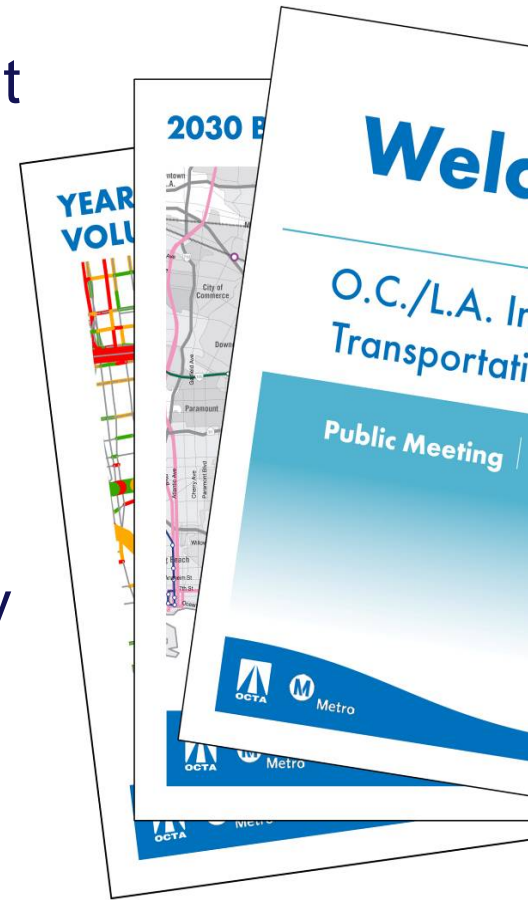

# Completed Tasks

- Held elected officials workshop and public open houses
- Incorporated public and agency comments
- Finalized conceptual alternatives
- Completed Pacific Electric Railway right-of-way (PE ROW) assessment

# Public Comments

- Strong support for transit improvements
  - Metrolink, light rail transit, bus rapid transit
- I-5, I-405, SR-91 identified as top priority freeways
- Interest in exploring transit use for PE ROW
- Support for bicycle improvements
- Limited interest in toll lanes/high-occupancy toll lanes

# Locations for Future Study

# Recommendations

- Receive and file conceptual alternatives report and PE ROW assessment
- Direct staff to work with Metro and develop scope of work for next phase of study
