

CENTRAL HARBOR BOULEVARD TRANSIT CORRIDOR STUDY

AT A GLANCE

CITIES:	Fullerton, Anaheim, Garden Grove and Santa Ana
COMMUNITY OUTREACH:	Marissa Espino Community Relations Officer (714) 560-5607 mespino@octa.net
WEBSITES:	octa.net/Harbor

Fact Sheet Updated 2/9/17

16F_033

OVERVIEW

The Orange County Transportation Authority (OCTA) is conducting the Central Harbor Blvd. Transit Corridor Study (Study) to envision the future of transit on Harbor Blvd., from Chapman Ave. in Fullerton to Westminster Blvd. in Santa Ana. This vital north-south connection links residents, businesses, schools and visitor destinations and has the distinction of being the busiest bus transit corridor in Orange County.

BACKGROUND

The OC Streetcar, which will serve the cities of Santa Ana and Garden Grove, is currently in the design phase and will connect the Santa Ana Regional Transportation Center (SARTC) to Harbor Blvd. and Westminster Ave. at its western terminus. The City of Fullerton recently completed the College Connector Study, which evaluated options for improving transit connections between Fullerton Downtown, the transportation center and local college campuses.

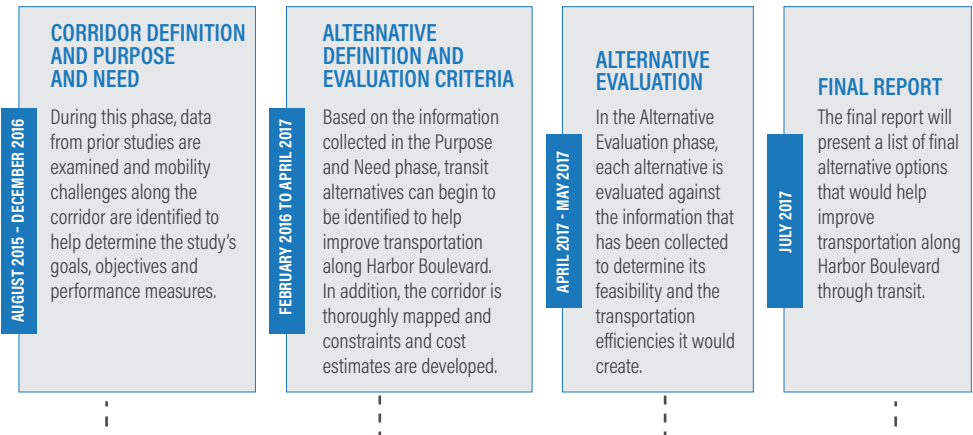

Given the current and planned transit services connecting to and along Harbor Blvd., the Study will assess current and future travel demands, consider a variety of transit technologies, including bus rapid transit (BRT) and streetcar options, and evaluate improvements to alternative parallel streets. In partnership with the cities of Santa Ana, Garden Grove, Fullerton and Anaheim, OCTA will ultimately identify a range of transit alternatives for further study to determine the appropriate solution to enhance or expand upon current transit services in the area.

SCHEDULE

Orange County Transportation Authority
550 S. Main Street
