Thank you for coming!

What is the I-5 Irvine & Tustin Improvements Project?

The I-5 Irvine & Tustin Improvements Project (Project) is evaluating ways to improve the I-5 freeway between I-405 and SR-55, in the cities of Irvine and Tustin. Each day, 275,000 motorists drive this nine-mile stretch of freeway and by 2050 daily traffic is anticipated to increase to 429,000. The Orange County Transportation Authority (OCTA) in partnership with Caltrans is proposing the addition of one general-purpose (regular) lane in each direction and improvements to select interchanges to address projected demand and improve mobility. The project is currently in the environmental review process.
