

July 13, 2012

The Orange County Transportation Authority has begun construction of the Placentia Avenue and Kraemer Boulevard undercrossings. In accordance with federal railroad safety regulations, residents should expect to hear an increase in the frequency of train horns because of construction activities on and around the railroad tracks, regardless of quiet zone designation.

**Regular work hours are Monday through Saturday, 7 a.m. to 8 p.m.**

The following construction activities are anticipated to begin during the next two weeks:

## Placentia Avenue Undercrossing

- Storm Drain Protection Structure continues
- Placentia bypass road opened to traffic
- Continue work at Crowther/Placentia intersection (storm drain, electrical conduits for signals, water)
- Night time closures of Placentia at Crowther intersection ongoing to facilitate utility work
- Grading / Paving at Home Depot Way
- Place Minor Concrete on Crowther Avenue
- Erect signal poles and testing at Placentia/Crowther intersection
- Install hand railing on retaining walls along north BNSF right of way
- Install concrete panels and backfill for retaining walls along south BNSF right of way

## Kraemer Boulevard Undercrossing

- Grading for continuous railroad shoofly (detour) along BNSF right of way
- Preparation of sub grade and sub ballast for BNSF track installation on going
- Installation of temporary utility pole and move lines along Crowther completed
- Sewer at Cardinal Street on going
- Start drilling CIDH piles at RW-4 east of Kraemer
- Start drilling CIDH piles for Bridge Abut (1) and (3)

## BNSF Activity

BNSF is responsible for construction activities related to the installation of track necessary for the shoofly (railroad detour). OCTA and BNSF are closely coordinating their construction activities; however, **OCTA cannot direct the time and duration of BNSF activities.** Track installation activities will be loud and, depending on your location, you may experience additional vibration from the machinery. In addition to the track installation activities to shift rail traffic to accommodate the building of the rail bridges at Placentia Avenue and Kraemer Boulevard, BNSF is conducting track maintenance work along this corridor.

If you have any questions about this notification or other project issues, please contact:

**Tresa Oliveri, Outreach Project Manager, (714) 560-5374 or [toliveri@octa.net](mailto:toliveri@octa.net) or see below for additional options to “Get Connected/Stay Connected.”**

## Job Safety is OCTA's Top Priority

- Slow down and watch for workers and equipment
- Allow extra time to get to work, school and appointments
- Be extra careful when driving at night and in rainy weather
- Avoid use of mobile phones or other distractions
- Watch for closures and follow detours
- Be patient. Remember that this is a short-term inconvenience for a long-term solution.
