The Orange County Transportation Authority (OCTA), in partnership with the cities of Placentia and Anaheim, will implement a closure of Lakeview Avenue at Orangethorpe Avenue as early as February 23 for construction of an overcrossing. Once complete, the bridge will separate the roadway from the railroad tracks, enhancing safety and boosting mobility.

Lakeview Avenue will be closed south of Orchard Drive and north of Eisenhower Circle until late 2016. Orangethorpe Avenue remains open to drivers, pedestrians and bicyclists during this phase. The dedicated motorist detour for those traveling between the freeway to Yorba Linda is La Palma to Richfield to Buena Vista. Those needing to access local businesses and residences adjacent to the work area, please proceed with caution since local traffic lane configurations will be altered. Please refer to the map on the back of this notice for additional detour information for pedestrians and bicyclists. Residential and business access will be maintained throughout this activity. Please check the portable changeable message signs for the latest information about the closure date and detours.

Drivers and pedestrians are asked to use caution when traveling through the area. The Orange County Transportation Authority's highest priority is safety for its project workers and the public. During construction, please:

- Slow down and watch for workers and equipment
- Allow extra time to get to work, school and appointments
- Be extra careful when driving at night and in rainy weather
- Avoid use of mobile phones or other distractions
- Watch for closures and follow detours
- Be patient. Remember that this is a short-term inconvenience for a long-term traffic solution.

If you are interested in keeping up with the progress of this project, please visit ocbridges.com and register for construction notifications.

The OC Bridges Program is partially funded by Measure M, Orange County's half-cent sales tax for transportation improvements.
