# Southbound I-405 / Eastbound SR-22 Bridge Demolition & Extended Full Freeway Closure

August 17 - 18, 2013

## WHAT:

The southbound I-405 connector to the eastbound SR-22 freeway is being reconstructed in order to make room for the new SR-22 / I-405 carpool connector. Once construction on the new connector is complete, the old connector must be demolished. Since the southbound I-405 / eastbound SR-22 connector crosses over the I-405 freeway (near Valley View Street), in order to demolish the old structure, portions of the eastbound SR-22, northbound I-405 and southbound I-405 freeways will be closed for approximately 20 hours, Saturday, August 17 to Sunday, August 18, 2013.

## WHEN:

Portions of the eastbound SR-22, northbound I-405 and southbound I-405 freeways will be closed from approximately 9 p.m. Saturday, August 17 to approximately 5 p.m. on Sunday, August 18, 2013. *Please be advised these dates and times are subject to change due to unforeseen operational factors or inclement weather.*

## What will be closed?

- Northbound I-405 freeway will be closed at Valley View St.
- Southbound I-405 freeway will be closed at the I-605 freeway junction
- 7th St. / Eastbound SR-22 will be closed at southbound I-405 freeway junction

## Other Related Closures:

Traffic will be shifted onto the new southbound I-405 / eastbound SR-22 connector a few weeks before the old connector is demolished. In order to restripe the freeway and shift traffic onto the new connector, crews must close the existing southbound I-405 / eastbound SR-22 connector for 55 hours. In addition, the EB SR-22 Valley View Street off-ramp and a portion of Garden Grove Boulevard between Valley View Street and the northbound I-405 Valley View Street off-ramp, will also be closed. This 55-hour closure is tentatively scheduled to take place from 10 p.m. Friday July 26 to 5 a.m. Monday, July 29. More information regarding this closure is available at [www.octa.net/BridgeDemo](http://www.octa.net/BridgeDemo).
