OVERVIEW

Welcome and thank you for attending the State Route 57 Northbound Improvement Project Public Information Open House. Tonight's open house kicks-off the public information process for the Project Approval/Environmental Document (PA/ED) phase. The project development team invites you to:

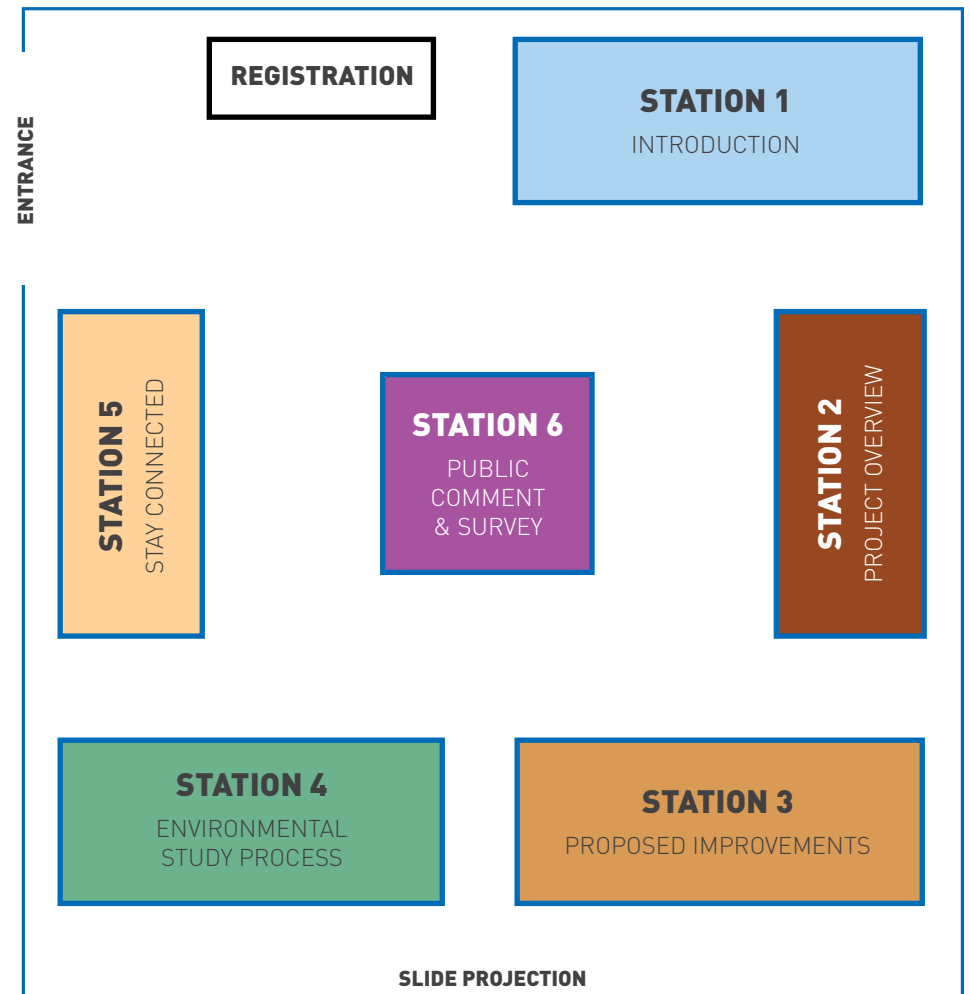

- Learn about the project, environmental study process and current schedule
- Meet the project development team as the study moves forward
- Ask questions and share your comments, concerns or ideas for improving this segment of the SR-57 alongside your neighborhood

PROJECT AREA MAP

GUIDE TO MEETING EXHIBITS

For your convenience, project information is presented at six sequential stations. Each station is color-coded, focuses on a specific topic and is staffed by a subject-matter expert. We welcome your questions and feedback. Please keep in mind that this study is in the early stages and your feedback will be considered in the development of the draft environmental document. You are invited to visit the comment station to share your questions and feedback. Thank you.

Restrooms are located in the northwest corner of facility.
