

# Widen I-5 and I-405 By One Lane in Each Direction in Some Sections

## Freeway System

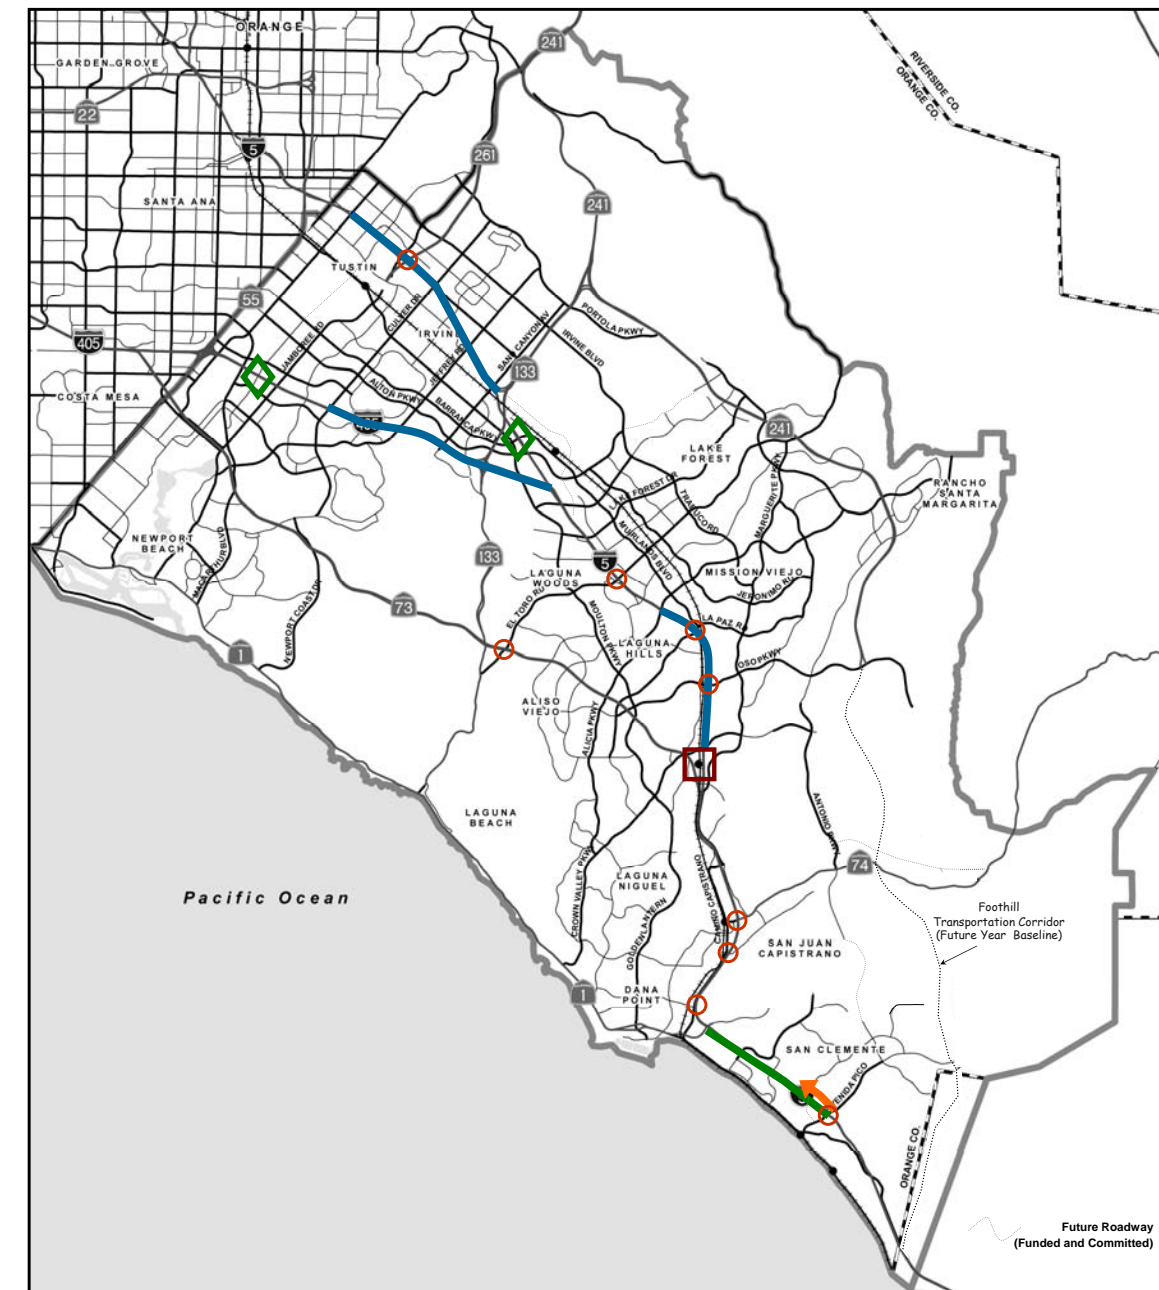

### Objective:

Add more lanes to the freeway system in locations that currently experience the most severe levels of freeway congestion. Correct interchange deficiencies in selected locations.

### Proposed Transportation Features:

- ❖ Add general purpose lanes in some sections of I-5 and I-405.
- ❖ Add a northbound truck climbing lane to I-5 in the vicinity of Avenida Pico.
- ❖ Extend the existing High Occupancy Vehicle (HOV) lanes on I-5.
- ❖ Add direct HOV ramps in key locations.
- ❖ Provide interchange improvements in key locations.
- ❖ Saddleback Connector: Extend the freeway ramp system on I-5 between Avery Parkway and Crown Valley Parkway and add new freeway ramps to provide direct access to Saddleback College.
