Senior Mobility Program

Senior Mobility Program

The Orange County Transportation Authority's (OCTA's) Senior Mobility Program (SMP) provides transportation funding for seniors in 20 participating cities and 4 local nonprofits, with additional cities expected to join within the next fiscal year. This voluntary program offers transportation alternatives for seniors in addition to local fixed-route buses or ADA paratransit (ACCESS) services.

Participating cities and nonprofit organizations are eligible to receive funds and vehicles from OCTA to help design and operate a transit program that best fits the needs of older adults in their communities. Current programs enable seniors to get to a number of appointments including community centers, congregate meal programs,

medical appointments and shopping centers through the use of small buses or through taxi voucher programs.

Funding

Since its inception in 2001, the Senior Mobility Program has provided nearly 1.7 million trips for older adults throughout Orange County. Previously funded primarily with Transit Development Act (TDA) monies, beginning in July 2011 the program will transition to funding cities through Project U, 1% of M2 funding, while TDA funds remain the primary funding base for nonprofit organizations grandfathered into the program. OCTA's role is largely to fund the programs and provide technical assistance. In this scenario, cities and organizations can design and

implement a service that best fits the needs of their communities.
