## SR-91 Eastbound Lane Addition Project

**Release Date: December 11, 2009**

### Eastbound SR-91 Nighttime Lane Closures from SR-55 to SR-71 December 14-18, 2009

**WHAT:** As part of the Riverside Freeway (SR-91) Eastbound Lane Addition Project, nighttime work will take place December 14 through December 18, 2009 to grind pavement and set "K" rail, or concrete safety barriers, from the SR-241 interchange to SR-71.

The "K" rail placement is necessary to create a safe work space for construction workers to build a new eastbound lane safely and efficiently during day and nighttime hours. SR-91 will remain open to drivers; however, some lanes and ramps will be closed during off-peak/nighttime hours to complete work. Nighttime work on this particular stretch of SR-91, between SR-241 and SR-71, will be ongoing through the end of 2010.
