

91 Express Lanes

Corporate Program

91 Express Lanes FasTrak™ program – easy and faster driving

- The FasTrak Program makes the daily commute on the 91 Express Lanes non-stop and fast.
- A small transponder simply mounts on the inside of the front windshield.
- Once an account is opened, the electronic toll system automatically deducts the toll.

Here's how to set up an account

- It's easy...contact our account executives at 714-560-5358.
- A corporate account can be opened with 5 or more transponders.
- The employer has the choice to subsidize all or part of the costs, or none at all.
- The first week is FREE when the account is opened via an ACH transaction (tolls automatically deducted from a prepaid corporate account).
- Additional incentives may be available. Check with our account executive.

Watch productivity increase from less-stressed employees

- Employees experience a shorter, less stressful commute to work.
- Morale goes up since employees get to work on time and are happier.
- Happier employees are more productive employees.

Why your employees will love the program

- Surveys show the average commuter says he saves 30 minutes or more on the afternoon commute—that leaves more time for family, errands or just relaxing.
- With a FasTrak transponder there's no fumbling for coins or tokens – the electronic toll system automatically deducts tolls from a prepaid account.
- If 3 or more employees carpool, their commute is FREE during non-peak hours and half price during peak hours (4 - 6 p.m.).
- 91 Express Club members receive goodies: discounted tolls, value-added benefits from Express Extras Partners, a newsletter, etc.
- Plus, the 91 Express Lane transponder can be used on the SR-133, SR-241 and SR-261 toll roads as well.
