Subject: OCTA Zero-Emission Bus Transition Plan: Moving Toward Cleaner Transportation

Help Shape the Future of OC Bus

The Orange County Transportation Authority (OCTA) is developing a Zero-Emission Bus Transition Plan (ZEB Transition Plan) to guide the transition of its bus fleet to 100% zero-emission vehicles by 2040 while maintaining safe and reliable service.

Over the 14-month planning process, OCTA will evaluate current and future service needs, battery-electric and hydrogen fuel-cell technologies, charging and fueling requirements, infrastructure needs, investments, and potential funding opportunities. The result will be an updated plan that meets state requirements, maintains reliable bus service, and supports cleaner air and a more sustainable future for Orange County communities.

Help shape the future of OC Bus and the transition toward a cleaner, more sustainable transportation system in Orange County!

Save the Date: Join the Virtual Community Webinar!

You are invited to a virtual community webinar to learn about the ZEB Transition Plan. Hear about the Plan's goals, learn about the zero-emission technologies and strategies, and share your feedback.

Thursday, October 15, 2026 | 6:00- 7:00 p.m.

Take the Community Survey and Share Your Feedback

Take our short community survey and help OCTA better understand public awareness, priorities, and perspectives on zero-emission buses in Orange County. The survey will be available September 28 through November 8, 2026. Everyone who completes the survey will have a chance to win one of four \$50 gift cards! Click [here](#) to view the official rules.
