The duration of this work may change depending on site conditions and are subject to change due to unforeseen operational factors.

Upcoming Work Activities

Crews will continue **Placement of temporary concrete barriers (k-rail)** which requires intermittent closures of the carpool, left two lanes and right lane between Oso Pkwy. and Alicia Pkwy. **Clearing and grubbing** will continue throughout the project area to establish a temporary construction yard and begin phase 1 of the La Paz Rd Interchange.

The overnight closures of NB La Paz Rd On-rampa is necessary for the safety of our crews. The NB La Paz Rd on-ramp closure will require a detour along Muirlands Blvd. This closure will provide a safety barrier for motorists and our crews as they continue clearing and grubbing activities adjacent to the on-ramps. All detours are depicted as red arrows in the map to the right. Traditional and electronic signage will be posted within the construction area and along the detour route to guide the community.
