

COMMITTEE TRANSMITTAL

March 11, 2019

To: Members of the Board of Directors

From: Laurena Weinert,  Clerk of the Board

Subject: 2019 Measure M2 Environmental Cleanup Program Call for Projects

Regional Planning and Highways Committee Meeting of March 4, 2019

Present: Directors Delgleize, Muller, M. Murphy, and R. Murphy

Absent: Directors Bartlett, Chaffee, and Pulido

Committee Vote

This item was passed by the Members present.

Committee Recommendations

- A. Approve the proposed revisions to Chapter 11 of the Comprehensive Transportation Funding Programs Guidelines.
- B. Authorize staff to issue the 2019 Environmental Cleanup Program Tier 1 call for projects for approximately \$2.8 million.

March 4, 2019

To: Regional Planning and Highways Committee

From: Darrell E. Johnson, Chief Executive Officer 

Subject: 2019 Measure M2 Environmental Cleanup Program Call for Projects

Overview

The Measure M2 Environmental Cleanup Program provides grants to projects that protect Orange County waterways and beaches from roadway runoff. Updated Environmental Cleanup Program Tier 1 Call for Projects Program Guidelines are submitted for review and approval. Board of Directors' authorization is also requested to initiate the 2019 Environmental Cleanup Program Tier 1 call for projects.

Recommendations

- A. Approve the proposed revisions to Chapter 11 of the Comprehensive Transportation Funding Programs Guidelines.
- B. Authorize staff to issue the 2019 Environmental Cleanup Program Tier 1 call for projects for approximately \$2.8 million.

Background

The Environmental Cleanup Program (ECP) provides for the allocation of two percent of annual Measure M2 (M2) revenues to improve overall water quality in Orange County. Funding is allocated on a countywide competitive basis to assist local agencies in controlling transportation-related pollution. These funds are intended to supplement, not supplant, existing transportation-related water quality programs. Funds are awarded to priority projects that improve water quality in streams, harbors, and other waterways that have a nexus to transportation-related pollution, consistent with the Orange County Transportation Authority's (OCTA) Ordinance No. 3 (Ordinance). The Ordinance calls for establishment of an Oversight Allocation Committee to advise the Board of Directors (Board) on priorities and processes for use of these funds.

In May 2010, the Board approved a two-tiered approach to fund the M2 ECP. The Tier 1 Grant Program consists of funding for equipment purchases and upgrades to existing storm drains and related best management practices. The Tier 2 Grant Program consists of funding for regional, potentially multijurisdictional, and more capital-intensive projects.

In September 2018, the Board approved funding for 12 Tier 1 projects. To date, the Tier 1 Program has funded 166 projects, totaling approximately \$22 million. There have been two Tier 2 calls for projects (call) to date, and the program has funded 22 projects, totaling approximately \$28 million. The current call focuses on the M2 ECP Tier 1 Program.

Discussion

OCTA staff worked with local agencies and the Environmental Cleanup Allocation Committee (ECAC) to determine areas of the M2 ECP Tier 1 Program Guidelines (Guidelines) that needed to be adjusted, as well as reviewed issues that emerged out of previous calls. The proposed modifications to the Guidelines are included in Attachment A.

The proposed changes were reviewed and endorsed by the ECAC at the January 10, 2019 meeting. The changes are minimal and include the following:

- An update to the ECP Tier 1 call application schedule and identification of a \$2.8 million funding commitment to support the 2019 call, and
- An update to the acceptable formats for electronic submittal of project applications. Electronic versions of application materials should be submitted on a thumb drive or via Dropbox, rather than on a CD/DVD.

It should also be noted that 2018 call Guidelines changes, including cost/benefit analysis and targeted pollutant scoring criteria, are proposed to remain in the Guidelines. Based on the results from last year's call, the ECAC concurred that these scoring criteria proved to be effective in providing a quantitative method to score applications.

The ECAC also discussed the long-term funding disposition of the ECP. This included whether there is going to be an ongoing need for the Tier 1 funding program where the focus is to capture trash and debris. The ECAC felt that with the state's recently adopted regulations requiring more stringent trash capturing devices, there will be an ongoing need for Tier 1-funded projects well into the foreseeable future. Based upon this conclusion, the ECAC agreed that maintaining an annual \$2.8 million call for Tier 1 projects is both appropriate and sufficient. Future Tier 2 calls may also be recommended following various need assessments that are under development by the County of Orange.

Next Steps

Upon Board approval of the staff recommendations, OCTA will notify local agencies of the call, which is anticipated to commence March 11, 2019. During the call, staff will offer a workshop, tentatively scheduled for March or April 2019, and one-on-one meetings by appointment to assist local agencies with the application process. Applications will be due to OCTA on or before May 9, 2019, and staff will return to the Board with final programming recommendations by late summer 2019. Upon Board approval of final programming recommendations, funds will become available to the selected projects.

Summary

OCTA staff is recommending revisions to the Guidelines and is requesting authorization to issue the 2019 call for the ECP Tier 1 Grant Program, totaling approximately \$2.8 million.

Comprehensive Transportation Funding Programs Guidelines Excerpt

Proposed Revisions

Chapter 11 - Environmental Cleanup Program (Project X)

Overview

The Project X/Environmental Cleanup Program (ECP) provides for Measure M2 (M2) revenues to improve overall water quality in Orange County from transportation-generated pollution. Specifically, the Orange County Local Transportation Authority's Ordinance No. 3 (Ordinance), dated July 24, 2006, provides 2 percent of gross M2 revenues dedicated to protecting Orange County beaches and waterways from the conveyance of urban runoff associated with transportation-generated pollution. The ECP ensures that funds will be used on a countywide competitive basis to meet federal Clean Water Act standards for controlling transportation-generated pollution by funding nationally recognized Best Management Practices (BMPs).

As required by the Ordinance, an Environmental Cleanup Allocation Committee (ECAC), representing a broad cross-section of the water quality community, was formed in October 2007 to provide guidance on program design and funding. The goal of the ECP is to fund projects on a countywide, competitive basis. This will assist the County of Orange and Orange County cities in reducing transportation-related water quality pollution by meeting Clean Water Act standards for local waterways and beaches.

Proposed projects must demonstrate a direct nexus (connection) to a reduction of transportation-related pollution as developed and defined by the ECAC in conformity with the Ordinance. All proposing agencies must demonstrate an understanding of how their proposed projects meet the following transportation pollution nexus definition:

- Transportation-related activities can be a contributor of pollutants and/or impairments to receiving waters via aerial deposition, storm, and non-storm water discharges. Transportation-related activities are associated with the operation, construction, and maintenance of public roads, highways, and other ground transportation systems.
- The conveyance of transportation-related pollutants to surface and groundwater can occur from precipitation, runoff, and leaching entering or discharging from public roads, highways, and other ground transportation systems via drainage systems, such as catch basins, curbs, gutters, ditches, manmade channels, retention basins, or storm drains. The quality and quantity of these discharges vary considerably and are affected by hydrology, geology, land use, season, and sequence and discharge of hydrologic events.
- Pollutant sources can encompass right-of-way, properties, facilities, and activities related to motor vehicles, highway maintenance, construction site runoff, maintenance facility runoff, illegal dumping, spills, and landscaping care. Pollutant categories include but are not limited to metals (such as copper, lead, and zinc), organic chemicals and compounds (hydrocarbons and pesticides), sediment, nutrients (nitrogen and phosphorus), litter, oxygen demanding substances (decaying

vegetation, animal waste, and other organic matter), groundwater dewatering discharges, and pathogenic material.

ECP funds are designed to supplement, not supplant, existing water quality programs. Proposed projects must improve and not replace existing pollution reduction efforts by an eligible party. Funds will be awarded to the most competitive projects with the highest benefit to water quality.

The intent of the ECP is to provide funding for water quality projects that do not replace existing transportation water quality expenditures. In other words, if a project has components which would replace features already in place or which would fulfill project specific mitigation, those components would not be eligible for funding consideration. Some upgrades and expansions may be eligible.

Proposed projects, which support compliance with the 2015 adopted Trash Provisions, are eligible for ECP funding provided the funds would not replace established and programmed funds and the funds are not applied to any mandated project design features or required mitigation measures.

The eligibility of the project and its components will be determined during the evaluation process. Contact Joseph Alcock at (714) 560-5372, or jalcock@octa.net with questions.

Tier 1 Grant Program

Overview

The Tier 1 Grant Program is designed to mitigate the more visible forms of pollutants, such as litter and debris, which collect on the roadways and in the catch basins (storm drains) prior to being deposited in waterways and the ocean. It consists of grant funding for Orange County local governments to purchase equipment and upgrades for existing catch basins and other related BMPs (i.e., “street-scale” low flow diversion projects). Examples include screens, filters, and inserts for catch basins, as well as other devices designed to remove the above-mentioned pollutants. To date, eight Tier 1 calls for projects have been held. Through this process, many of the opportunities for street-scale BMPs have been fulfilled. Water quality projects, regardless of technology, are eligible for Tier 1 funding provided they have a verifiable benefit to water quality and fall within the maximum per project programming cap. The intent of this funding program is for project applicants to complete the work generally within one year from the letter agreement execution.

Tier 1 Project Types

The Tier 1 projects funded in the past included the following types. A description of each project type is provided below:

- 1) Automatic Retractable Screen and other debris screens or inserts: screen or insert units prevent debris from entering the storm drain system.
- 2) Irrigation system retrofits to reduce runoff: these projects decrease runoff from highway medians by using more efficient irrigation systems and/or replacing existing landscape to reduce the amount of water used in irrigation.
- 3) Continuous Deflection Separator (CDS): CDS units screen, separate, and trap debris, sediment, oil, and grease from storm water runoff.
- 4) Linear Radial Gross Solid Removal Device (GSRD): GSRDs are certified full capture systems which efficiently remove large solids from runoff water flows.
- 5) Marina Trash Skimmer: these devices draw in floating debris, such as plastics, bottles, paper, oil sheen, and drift wood. The installation of marina trash skimmers will reduce the amount of trash and debris reaching the open ocean.
- 6) Bioswales and Bioretention systems: pollutants and sedimentation are captured and subsequently removed from stormwater runoff.
- 7) Trash Boom: a floating boom placed across a channel captures trash and debris that have reached flood channels from being further conveyed to downstream receiving waters.

Pre-Application Process

In order to ensure the best use of M2 funds and assist eligible jurisdictions with the Tier 1 Grant Program, applicants may engage in a pre-application process with OCTA staff in project planning, cost estimate development, and determination of likely projected competitiveness. Specific meeting times will be established once the call is initiated. After the call for projects deadline and submittal of the grant application, applicants will not be able to change the content of the application or scope of the project.

Eligible Applicants

ECP funds can be used to implement street and highway-related water quality improvement projects to assist Orange County cities and the County of Orange to meet federal Clean Water Act standards for urban runoff and State Water Resources Control Board requirements for trash capture. Applicants eligible for ECP funds include the 34 Orange County cities plus the County of Orange. Eligible applicants must meet the transportation requirements discussed in the M2 Ordinance.

Third parties, such as water and wastewater public entities, environmental resource organizations, nonprofit 501(c) environmental institutions, and homeowners' associations cannot act as the lead agency for a proposed project, however; these agencies can jointly apply with an Orange County city and/or the County of Orange.

Two or more agencies may participate in a project. If a joint application among agencies and/or third-party entities is submitted, a preliminary agreement with joint or third-party entities must be provided as part of the application. In order to meet Ordinance requirements, an eligible applicant must be the lead agency for the funding application. If a project includes more than one jurisdiction and is being submitted as a joint application, one agency shall act as lead agency and must provide a resolution of support from all joint applicants.

Each eligible jurisdiction must meet the eligibility criteria as set forth in Chapter 1 of these guidelines.

Project Programming

The Tier 1 Grant Program approach is designed to be consistent with Chapter 2 of these Comprehensive Transportation Funding Program (CTFP) Guidelines regarding the provisions below:

- Program Consolidation
- Funding Projections
- Programming Adjustments
- Project Cost Escalation

- Programming Policies
- Schedule Change Requests
- Project Advancements
- Semi-Annual Review

Refer to Chapter 2 for explanations of the above provisions.

Funding Estimates

Approximately \$2.8 million is available for the 2019 Tier 1 call for projects.

The maximum amount for the Tier 1 Grant Program is \$500,000 per project. The maximum amount that an applicant can receive in a funding period is \$500,000.

Matching Funds

For the Tier 1 Grant Program, a minimum local match of 20 percent of the eligible project cost is required. The matching funds shall be provided as a cash contribution.

Retroactive expenditures cannot be credited towards the matching fund threshold.

Overmatch

For the Tier 1 Grant Program, administering agencies may “overmatch” ECP projects; that is, additional cash match may be provided for the project. Applicants will receive additional points in the evaluation process for matching with cash above the minimum requirement. Proposals that exceed the 20 percent minimum funding match will be given an additional one-half point for every five percent over the minimum cash match (up to five bonus points).

Additionally, administering agencies must commit to cover any future cost overruns if the project is underfunded. Any work not eligible for ECP reimbursement must be funded by other means by the project applicant and cannot count as match. These non-eligible items should not be included in the cost estimate breakdown in the application.

Reimbursements

For the Tier 1 Grant Program, OCTA will release funds through two payments. The initial payment will constitute 75 percent of the contract award or programmed amount at contract award. OCTA will disburse the final payment, approximately 25 percent of eligible funds, after approval of the final report. Further information on reimbursements can be located within Chapter 9 of these Guidelines.

Scope Reductions/Modifications and Cost Savings

Any proposed scope reductions of an approved project must be submitted to OCTA to ensure consistency with the Tier 1 Grant Program requirements. If the proposed scope reduction is approved by OCTA, cost savings will be proportionally shared between OCTA and the grantee - a reduction in ECP funds must be applied proportionally to maintain the

approved local match percentage. All cost savings will be returned to the Tier 1 Grant Program for reallocation for the subsequent call of projects.

Any minor scope modifications, such as BMP device quantities and/or the adjustment of device locations, must be submitted to OCTA for administrative approval prior to the implementation of the project. The proposed modifications must mitigate the same pollutants, affect the same waterways, and meet all other provisions as stipulated in these guidelines.

2019 Tier 1 Call for Projects

2019 Tier 1 Call for Projects applications must be received by OCTA **no later than 5:00 p.m. on Thursday, May 9, 2019**. Projects that do not award construction contracts by June 30, 2020 will not be considered. OCTA allocates funds on July 1 of each year. Tier 1 projects are not eligible for delay requests; please refer to precept number 17 for additional information. Funds will become available upon execution of a letter agreement.

After the Tier 1 applications are reviewed by OCTA, an advisory panel will review and rank projects. Following a review by the ECAC, a recommended priority list of projects will be forwarded to the OCTA Board for approval in summer 2019. Funds allocated for projects are final once approved by the OCTA Board. No additional funds will be allocated to the project. Grantees are responsible for any costs exceeding the allocated amount.

Tier 1 Selection Criteria

OCTA will evaluate all proposals that meet the mandatory prerequisites based on competitive selection criteria (Exhibit 11-1) with the following categories:

- Problem and source identification
- Project design
- Operations and maintenance
- Project benefits
- Performance metrics
- Project implementation and readiness
- Secondary attributes*

*Note: Project elements which may qualify for points under the “secondary attributes” category do not need to be eligible expenditures. See Eligible Expenditures and Ineligible Expenditures sections for further information.

Each proposal can receive a maximum of 100 points, exclusive of five bonus points for cash overmatch. See Exhibit 11-1 for scoring categories and point distribution.

Exhibit 11-1 (Tier 1 Scoring Criteria)

Scoring Criteria		Points Possible												
1. Describe the need for the selected BMP(s), including nexus to transportation pollutants, and detail the benefits to water quality the BMP(s) will achieve. (up to 15 Points)		15												
2. Cost/Benefit (Up to 16 points): Based on information provided by the applicant, a cost/benefit calculation will be conducted to compare the total project cost to the area of priority land uses treated by the proposed BMP(s). Applicant is required to provide ¹ : <ul style="list-style-type: none">Types(s) of BMP(s) proposedNumber of each BMP typeTotal drainage area(s) contributing to each BMP typePercent of drainage area(s) that is/are considered priority land uses (i.e., high density residential, industrial, commercial, mixed urban, public transportation stations) The applicant must also provide geospatial information (through ArcGIS and/or Google Earth) that identifies the drainage area(s) and BMP location(s) for the project.		16												
3. Pollutant Reduction Benefits: Based on treatment capacity and BMP type, project benefit will be calculated using the scoring equation: (A x 3) + (B x 3) + (C x 6) = (up to 12 points) ¹		12												
<table><tr><th>Line</th><th>Factor</th><th>Points Available</th></tr><tr><td>A</td><td>Fractional percent of 1 year, 1-hour event flowrate discharging from priority land uses to the BMP(s)</td><td>0 to 1</td></tr><tr><td>B</td><td>Fractional percent of 85th percentile, 24-hr design event that is treated by a low-impact development (LID) or treatment control BMP²</td><td>0 to 1.5</td></tr><tr><td>C</td><td>BMP Multiplier:<ul style="list-style-type: none">1/3 point for high capacity systems2/3 point for filters/biofilters1 point for zero-discharge BMPs</td><td>0 to 1</td></tr></table>			Line	Factor	Points Available	A	Fractional percent of 1 year, 1-hour event flowrate discharging from priority land uses to the BMP(s)	0 to 1	B	Fractional percent of 85th percentile, 24-hr design event that is treated by a low-impact development (LID) or treatment control BMP ²	0 to 1.5	C	BMP Multiplier: <ul style="list-style-type: none">1/3 point for high capacity systems2/3 point for filters/biofilters1 point for zero-discharge BMPs	0 to 1
Line	Factor	Points Available												
A	Fractional percent of 1 year, 1-hour event flowrate discharging from priority land uses to the BMP(s)	0 to 1												
B	Fractional percent of 85th percentile, 24-hr design event that is treated by a low-impact development (LID) or treatment control BMP ²	0 to 1.5												
C	BMP Multiplier: <ul style="list-style-type: none">1/3 point for high capacity systems2/3 point for filters/biofilters1 point for zero-discharge BMPs	0 to 1												
¹ Applicants are not expected to calculate the score for question 2 and question 3. OCTA's technical consultant will provide the analysis for these questions based on the application materials provided by the applicant.														
² Examples include high capacity systems (i.e. hydrodynamic separators), filters/biofilters, or zero-discharge BMPs (i.e., retention/infiltration).														
4. How effective will the proposed project be in dealing with the more visible forms of pollutants, such as a litter and debris? (up to 10 points)		10												
5. What other BMP types were considered for this project? Why was the proposed BMP chosen? (5 points)		5												
6. Provide information on proposed BMP performance efficiency and/or effectiveness, including pollutant capture, storage capacity, flow capacity, etc. (up to 6 points)		6												
7. Project Readiness: The project schedule will be reviewed by the evaluation committee to determine when the proposed BMP will be operational following the OCTA Board of Directors approval. (up to 6 points):		6												
Less than 4 Months	(6 points)	8 - 12 months	(2 points)											
4 - 8 months	(4 points)	More than 12 months	(1 point)											

8. Secondary Attributes: Will the proposed project provide any benefits beyond water quality improvement (i.e., water use efficiency, public awareness, flooding control, recreation, habitat, sustainability)? (up to 5 points)	5
9. What is the methodology for measuring pollutant reduction before and after the BMP is implemented? How frequently will monitoring and performance assessment occur? (up to 10 points)	10
10. Provide an operations and maintenance plan for the lifespan of the proposed project. Include schedule of inspections, cleaning, removal and disposal of pollutants, repairs, etc. (up to 15 points)	15
	<hr/>
	100
12. BONUS: Are local matching funds in excess of the 20% minimum cash being proposed? If yes, at what percentage? (.5 point for each 5% cash overmatch, up to 5 points)	5
Note: overmatch bonus points can only be granted to projects with a cash match.	
	<hr/>
	105

Application Process

The following information, which is to be completed within the Tier 1 Grant Application Form, available electronically from OCTA, is required to evaluate and select projects. A checklist is included in the Tier 1 Grant Application Form to assist eligible agencies in assembling project proposals. The following project information will be necessary as part of the application process:

- Project Title
- Lead Agency Information
- Proposed Schedule
- Project Management
- Description and Scope of Proposed Project
- Integrated Regional Water Management Plan identification (if applicable)
- Project Readiness
- Performance Metrics
- Detailed Project Estimate
- GIS/KMZ data files for each BMP type
- Minimum 20% Local Match (cash match only)
- Joint-Application (if applicable)

In addition to the completed Tier 1 Grant Application, the following documentation is required as part of the application process:

- Project design or concept drawings, including preliminary design calculations, of proposed BMP
- Precise maps to show tributary drainage area and proposed location(s) for BMP installation including geospatial information (through ArcGIS and/or Google Earth)

- Digital project site photos
- Preliminary agreements with joint and/or third-party entities if part of the funding application (if applicable)
- A city council resolution specific to each proposed project and funding commitment. A final resolution authorizing request for funding consideration with a commitment of local match funding must be provided with the project application. **If a draft copy of the resolution is provided, the local agency must also provide the date the resolution will be finalized by the local agency's governing body.** A final copy of the City Council approved resolution must be provided at least four (4) weeks **PRIOR** to the consideration of programming recommendations by OCTA's Board. See Exhibit 11-2 for a sample resolution.

For the Tier 1 Grant Program, an unbound original and two copies (total of three) of the completed application form and supporting documentation are to be submitted, plus an ~~CD/DVD~~ electronic copy of the complete application materials. Electronic application materials can be submitted via email, USB drive, or Dropbox. CD/DVD files are not accepted. Use separate sheets of paper if necessary.

There is no maximum length for proposals. All pages must be numbered and printed on 8 1/2 x 11 sheets of white paper. Maps and drawings can be included on 11 x 17 sheets, folded into the proposal. The original proposal should be left unbound for reproduction purposes.

Submitted applications are considered final. Any applications that do not contain all required information and documentation will be disqualified.

Exhibit 11-2 (Tier 1 Sample Resolution)

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL/BOARD OF THE CITY/COUNTY OF _____

AUTHORIZING AN APPLICATION FOR FUNDS FOR THE ENVIRONMENTAL CLEANUP, TIER 1 GRANT PROGRAM UNDER ORANGE COUNTY LOCAL TRANSPORTATION ORDINANCE NO. 3 FOR (PROJECT NAME).

WHEREAS, Orange County Local Transportation Ordinance No.3, dated July 24, 2006, and is known and cited as the Renewed Measure M Transportation Ordinance and Investment Plan makes funds available through the Environmental Cleanup Program to help protect Orange County beaches and waterways from transportation-generated pollution (urban runoff) and improve overall water quality.

WHEREAS, the Environmental Cleanup, Tier 1 Grant Program consists of funding purchases and installation to catch basins with Best Management Practices, such as screens, filters, inserts, and other "street-scale" low flow diversion projects.

WHEREAS, OCTA has established the procedures and criteria for reviewing proposals; and

WHEREAS, (ADMINISTERING AGENCY) possesses authority to nominate water quality improvement projects that have a transportation pollution nexus to finance and construct the proposed project; and

WHEREAS, by formal action the (GOVERNING BODY) authorizes the nomination of (PROJECT NAME), including all understanding and assurances contained therein, and authorizes the person identified as the official representative of the (ADMINISTERING AGENCY) to act in connection with the nomination and to provide such additional information as may be required; and

WHEREAS, the (ADMINISTERING AGENCY) will maintain and operate the equipment acquired and installed; and

WHEREAS, the (ADMINISTERING AGENCY) will give OCTA's representatives access to and the right to examine all records, books, papers or documents related to the funded Tier 1 Grant Project; and

WHEREAS, the (ADMINISTERING AGENCY) will cause work on the project to be commenced within a reasonable time after receipt of notification from OCTA and that the project will be carried to completion with reasonable diligence; and

WHEREAS, the (ADMINISTERING AGENCY) will comply where applicable with provisions of the California Environmental Quality Act, the National Environmental Policy Act, the American with Disabilities Act, and any other federal, state, and/or local laws, rules and/or regulations;

WHEREAS, the (ADMINISTERING AGENCY) must include all projects funded by Net Revenues in the seven-year Capital Improvement Program as part of the Renewed Measure M Ordinance eligibility requirement.

WHEREAS, the (ADMINISTERING AGENCY) authorizes a formal amendment to the seven-year Capital Improvement Program to add projects approved for funding upon approval from the Orange County Transportation Authority Board of Directors.

WHEREAS, the City/County of _____ will provide a minimum of 20% in matching funds for the (PROJECT NAME) as required by the Orange County Comprehensive Transportation Funding Programs Guidelines.

NOW, THEREFORE, BE IT RESOLVED that the City/County of _____ hereby authorizes (NAME OF AGENCY REPRESENTATIVE) as the official representative of the (ADMINISTERING AGENCY) to accept funds for the Environmental Cleanup, Tier 1 Grant Program for (PROJECT NAME).

BE IT FURTHER RESOLVED that the City/County of _____ agrees to fund its share of the project costs and any additional costs over the identified programmed amount.

Eligible Expenditures

- ECP funds must be for capital improvement. Construction management and project management cannot exceed 15 percent of the total construction costs.
- ECP funds can only be used for facilities that are in public ownership for public use; however, water quality improvements on private property, which are connected to municipal separate storm sewer systems, are eligible. (For example, a homeowner association can apply for funding through an eligible agency if the proposed project is connected to a public facility.)
- Reducing volume of surface flows is an integral factor of improving water quality, therefore, projects that have water-saving features (i.e., drip systems) are eligible for funding considerations.

Ineligible Expenditures

- Operations and maintenance costs are not eligible expenditures. Operations and maintenance costs cannot be utilized as a source of matching funds.
- ECP funds are not to be used for planning.
- Expenditures prior to the grantee executed letter agreement date cannot be considered eligible for funding or match.
- Landscaping installation and replacement are not eligible for funding consideration.
- Replacement of equipment funded with ECP funds that is still within its anticipated useful life (based on manufacturer's specifications).
- Capital equipment purchases related to regular on-going street maintenance efforts, including, but not limited to: trash receptacles, vacuum trucks and/or equipment, street sweepers, signage, etc.

Reporting and Reimbursement

A final report must be filed within 180 days of the project being completed with information as shown in Form 10-16. See Chapter 9 for the process and requirements regarding reimbursements and reporting for the Tier 1 Grant Program.

Additionally, an exception to Precept #36: Agencies may appeal to the ECAC and the OCTA Board on any issues that the agency and OCTA cannot resolve, as such are the approving bodies for this program.

Technical and/or Field Review

Once an agency submits a final report for a project, OCTA shall review the report for compliance with the CTFP guidelines and may conduct a field review. OCTA will use the project cost estimate forms submitted with the application and revised where appropriate, project accounting records and the final report as the primary items to conduct the review. Agencies must maintain separate records for projects (i.e., expenditures, interest)

to ensure compliance. Only CTFP eligible items listed on a project's cost estimate form will be reimbursed. See Chapter 10 for independent audit requirements beyond the technical and/or field review.
