

## OCTA OC Loops Bike Gap Closure Study

### OC Loops Bike Gap Closure Study Workshop Thursday, March 24, 6–7 p.m.

The [OC Loops](#) vision is to create seamless connections for people to bike, walk and connect to some of California's most scenic beaches and inland reaches. With significant progress made in north Orange County (OC North Loop), OC Loops is now looking to create regional bikeway networks across the central and south Orange County communities through the Bike Gap Closure Feasibility Study (Study).

Join OCTA for a community workshop to learn more about the OC Loops Bike Gap Closure Study. This interactive webinar will feature an overview of the project purpose and timeline. It will also include opportunities to provide input on how you envision using the Loops, ask the project team questions, and provide additional feedback.
