

Widen I-5 and I-405 in All Sections, Emphasizing General Purpose Lanes

Freeway System

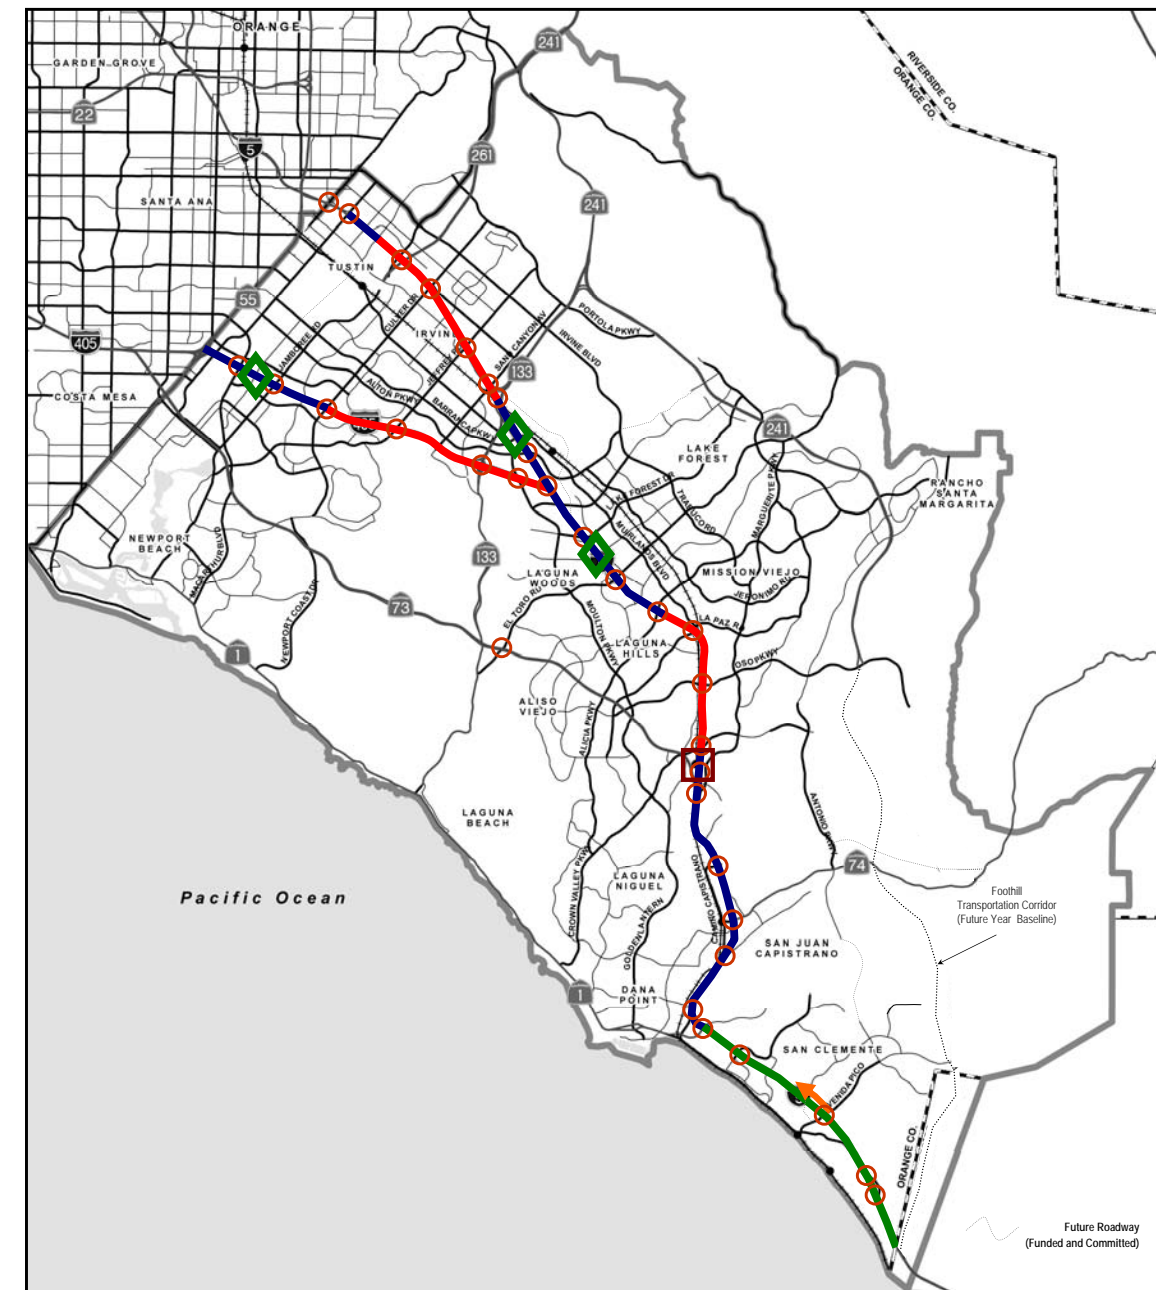

Objective:

Add more lanes to the full length of the freeway system to relieve existing and future freeway congestion. Address interchange deficiencies throughout the study area.

Proposed Transportation Features:

- ❖ Add general purpose lanes to I-5 and I-405 needed to accommodate all types of traffic.
- ❖ Complete the the High Occupancy Vehicle (HOV) system in south Orange County by extending the HOV lanes on I-5 to the San Diego County Line.
- ❖ Add direct HOV ramps in key locations.
- ❖ Provide interchange improvements in most locations.
- ❖ Includes Saddleback Connector and Truck Climbing Lane.
