2009 OCTA Commuter Bikeways Strategic Plan Updates to Pages 165 & 166

The Commuter Bikeways Strategic Plan (CBSP) encourages the enhancement of Orange County's regional bikeways network, in order to make bicycle commuting a more viable and attractive travel option. The CBSP establishes regional priorities that encourage connections to employment centers, schools, and transit stations. The proposed bikeways within the CBSP are a compilation of local jurisdiction plans, which are reflected in Chapter 3. This documentation is included in the CBSP to partially satisfy state Bicycle Transportation Account funding eligibility requirements. Any proposed bikeway shown in the CBSP is intended to directly correspond to the plans of local jurisdictions.

The 2009 OCTA Commuter Bikeways Strategic Plan (CBSP) was originally published in May 2009. The City of San Juan Capistrano recently provided corrections and updated information regarding the existing and proposed bikeways within the CBSP. These changes were necessary to bring the CBSP in line with the City's General Plan. Therefore, the attached pages include these updates, and they replace pages 165 and 166 in the 2009 CBSP. Please defer to the attached updated pages moving forward when referencing the 2009 CBSP.

Expenditures

Information on past bicycle facility expenditures is not available.

Bicycle Transportation Plan

San Juan Capistrano has bicycle plans that are not part of a Master or General Plan.
