SIGN FEATURES

- 10-foot columns elevate the sign to be visible, but not distracting, to drivers
- Internal up-lighting illuminates the sign during evening hours
- Stone veneer plaster used for the supporting columns provides a visually appealing character, while being a durable material requiring minimal maintenance

CAPITAL COST

\$155,000, included as part of the \$325 million I-5 Gateway improvement project

ORANGE COUNTY CITIES PARTICIPATING IN CALTRANS' PROGRAM

- Buena Park
- Huntington Beach

ORANGE COUNTY GATEWAY SIGN

The Orange County monument sign announces to drivers their arrival to one of the most recognizable and visited locations in the country. The sign symbolizes the county's transformation from a suburban community to a thriving metropolitan area. OCTA is one of 48 agencies participating in Caltrans' Gateway Monument pilot project, which aims to define and signify the character of individual locations along freeways throughout the state.
