

Construction Alert

Pile Driving at Newhope Bridge

WHAT: As part of the Garden Grove Freeway (SR-22) Improvement Project, pile driving will occur at the Newhope bridge. Pile driving is necessary to place the columns for the expanded portion of the bridge. **Pile driving causes vibration and noise, nearby residents will feel and hear this activity.**

WHERE: The part of the SR-22 freeway that crosses over Newhope Street will be under construction.

WHEN: Work will begin February 19, at 7 a.m. and will continue until 4 p.m. The work will run Monday through Saturday weather permitting. There will be about three weeks of pile driving at Newhope.

We will be regularly noticing you when construction activities may impact your community

This activity will cause noise, dust and vibration. Engineers will be on site to ensure work is completed quickly and efficiently. Every effort will be made to minimize impacts to residents, businesses and motorists throughout this and all phases of construction.

Due to unforeseen operational factors or inclement weather, these dates and times may change.

BACKGROUND: The Orange County Transportation Authority (OCTA) will oversee the SR-22 Improvement Project, which spans the cities of Westminster, Garden Grove, Santa Ana and Orange. The major improvements to the SR-22 will include: a carpool lane in each direction between Tustin Avenue and Valley View Street, auxiliary lanes between interchanges and soundwalls along the project limits.

To be added to our distribution list or for more information regarding this project, log on to www.octa.net/SR22 or call the Transportation Helpline at (800) 724-0353

OCTA reminds motorists to please drive with extra caution and reduce speeds while traveling through freeway work zones.
